Re: Harry Winston - Bruce Winston

Dear Joe:

I have your e-mail of March 5th concerning settlement.

As I understand your position, Harry Winston, Inc. is agreeable to a settlement that permits Bruce Winston to use his name in the jewelry field in the United States only, subject to the restriction that all rights in the BRUCE WINSTON trademark shall be personal to Bruce Winston and terminate on his death. Further you propose to discontinue the opposition proceeding *without prejudice*, and provide for ongoing oversight of Bruce's management of his business.

Our client is not agreeable to the foregoing restrictions. We remain interested in discussing terms of a Consent Agreement including, cooperation between the parties to assure that there is no confusion in the marketplace. I should again state that Bruce Winston's sole interest is to market high quality jewelry under his own name.

Failing some meaningful progress in the near term, it would seem advisable to now resume proceedings in the opposition.

I will await your advice.

Cordially,
